Letter of Appraisal

To whom it may concern

Cityscape Studio has been our partner on various projects in the past 7 years. Our company produces and trades furniture items and we are specialized in interior design solutions. Our work process requires that we interact with various related industries – from construction to architecture, planning and design. We have worked with Cityscape on homes, office buildings and hotel interiors for the Bulgarian market and abroad.

We choose Cityscape as our partners because they are driven professionals with great ideas and performance level which exceeded our expectations. Since some projects take months to complete, we have been continuously impressed by their time and resource management capabilities, their planning efficiency and the flow of communication with them. Their services have been outstanding in every step of the way – from the idea generation and the design stage to the monitoring of the implementation phase.

From our experience, we believe that their work ethics are impressive and cannot be compared to other companies on the local market. We recommend Cityscape Studio wholeheartedly and reassure you that their performance level is excellent.

Kind regards,

Nikolay Neikov

Managing Director
